Stephen Landis

Front-End Web Developer

stephen.n.landis@gmail.com | stephenlandis.com | github.com/snlandis | linkedin.com/in/stephenlandis

About Me

As a front-end developer I help bring beauty and accessibility to website users while coordinating between back-end developers and designers. My experience in customer service and world travel has equipped me to be a team player anywhere I am, while giving my best work focused on the user.

Tools and Skills

HTML, CSS, JavaScript, React, Angular, jQuery, Node.js, Wordpress, Git

Work Experience

Freelance Web Developer   October 2016 - Current

- **Trivia Fight:** An app that allows players to log in, talk in a chat window, challenge each other via SMS invitation and answer trivia questions in hopes of winning. Built with React, Node.js, Firebase, Heroku, Socket.io, API- Open Trivia DB, EJS, Twilio.
- **Philanthropeas:** A cross-discipline effort between a UX team and dev team. The app allows users to find a charity to donate extra food to or to register as a charity and coordinate donations. Built with HTML, CSS, JavaScript, Node.js and MongoDB.
